

FuXi-S2S reduces JJAS rainfall error across most of India from Week 2

Local MAE difference: ERPAS minus FuXi-S2S | blue = lower FuXi error | IMD verification

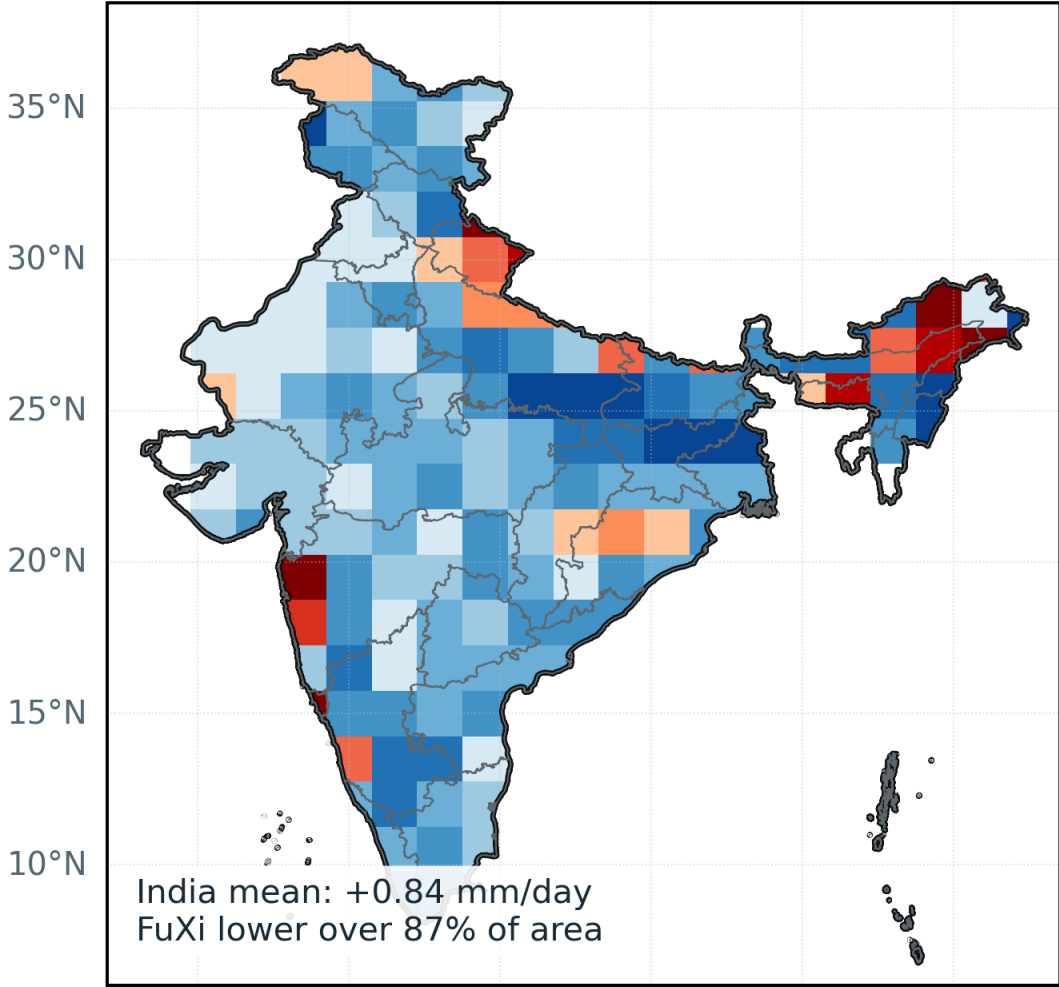

a Week 1

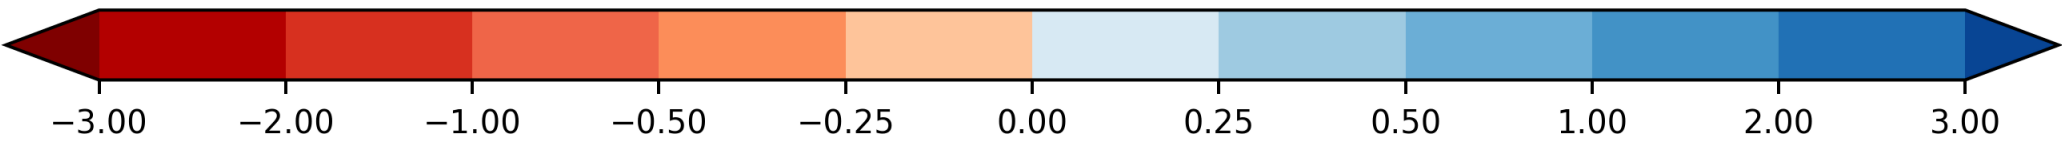

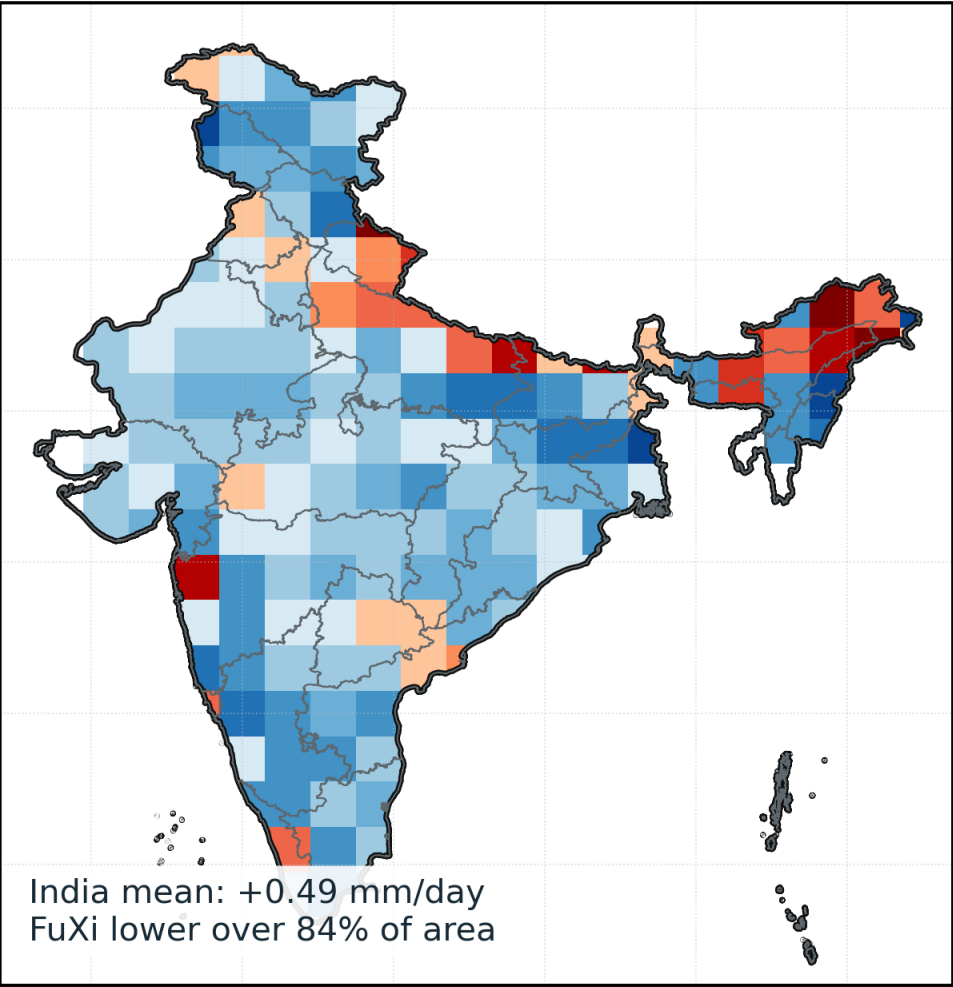

b Week 2

c Week 3

d Week 4

ERPAS MAE – FuXi-S2S MAE (mm/day)

Mean over 31 paired initialization cycles (2023–2024); identical valid weeks; common FuXi-native 1.5° grid; official India state boundary. Descriptive, not a significance map.
