

# Seasonal ACC advantage across India

All India and four official IMD homogeneous regions | blue: FuXi-S2S higher | orange: ERPAS higher

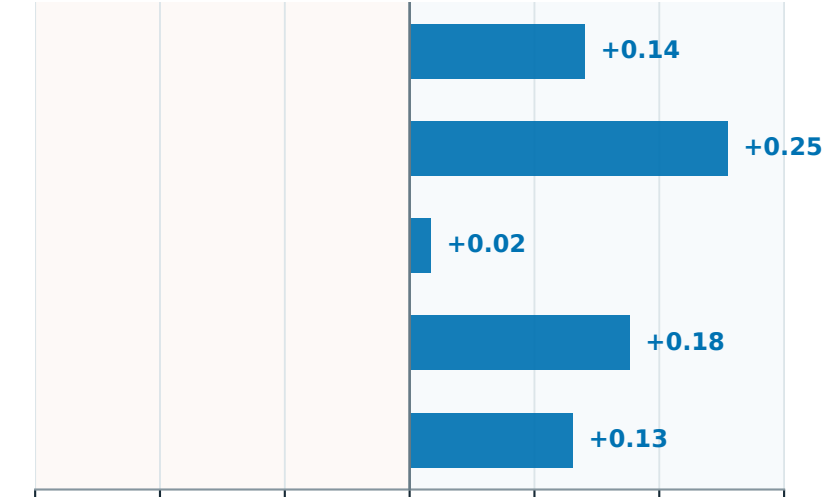

**a Winter (JF)**

n = 17

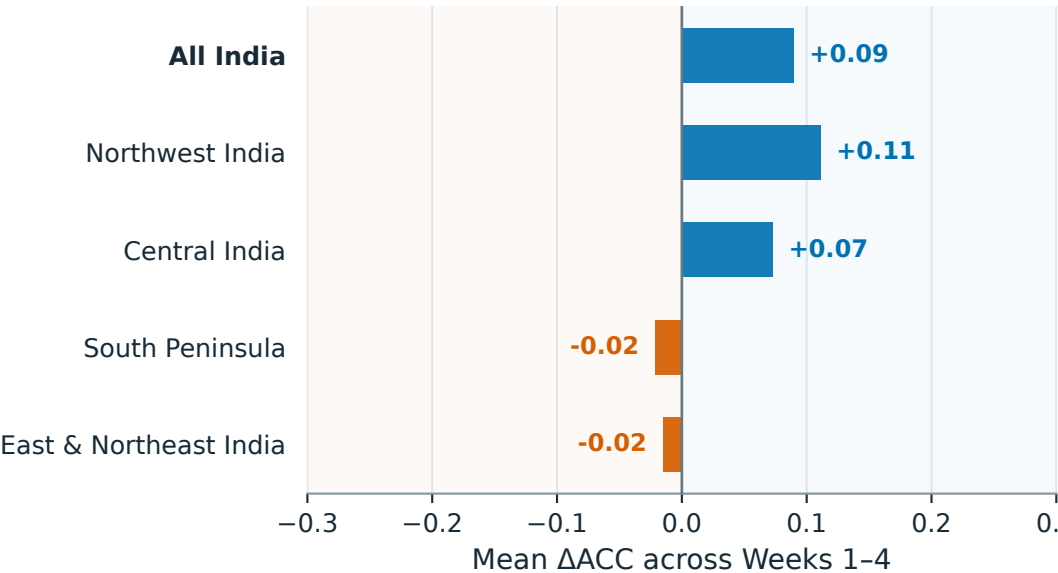

**b Pre-monsoon (MAM)**

n = 27

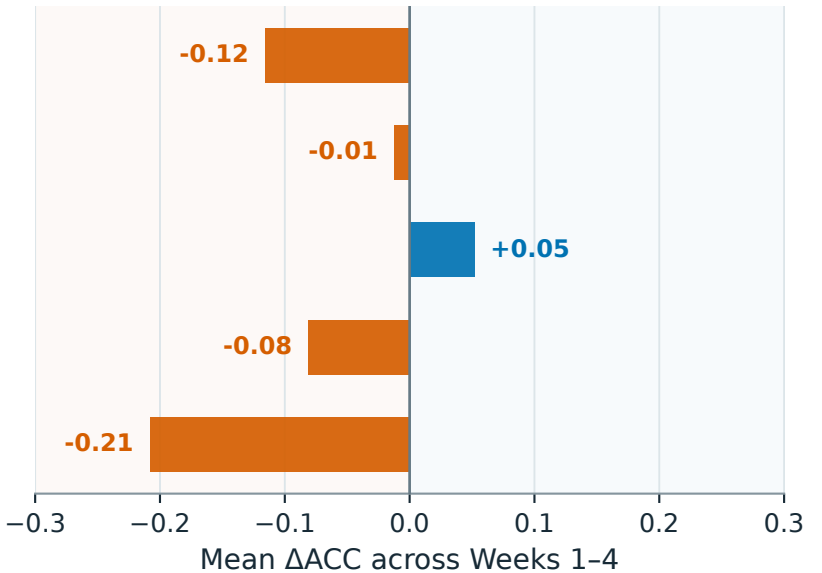

**c Monsoon (JJAS)**

n = 31

**d Post-monsoon (OND)**

n = 26

$\Delta$ ACC = FuXi-S2S – ERPAS · equal-weight mean of the four lead-specific seasonal ACC values · paired 2023–2024 issues · common 1.5° grid
