

FuXi-S2S shows higher JJAS rainfall ACC than ERPAS

31 paired JJAS issues, 2023-2024 | IMD verification | labels show FuXi-minus-ERPAS ACC

a Common IMD baseline

Forecast and observed anomalies use IMD 1991-2020

Arithmetic mean of per-initialization area-weighted spatial ACC · identical valid periods · common 1.5° grid (FuXi native) · higher is better

b System-specific baselines

FuXi 2002-2021 · ERPAS provider · observed IMD 1991-2020
